

EMPOWER THE DIFFERENCE

Syngeon S.A. is a Luxembourg based independent consulting company for European financial service providers, such as banks, capital management companies, custodian and depository banks, fund platforms, securities service providers, brokerage agencies and insurance companies. We provide services from IT strategy to implementation, from process design to process implementation driven by market needs, efficiency increase or regulations. We keep an eye on market developments and develop future-oriented concepts.

Join our team in Luxembourg – the cosmopolitan country in the heart of Europe, the second largest center of excellence for investment funds and the largest private banking center in the Eurozone after the U.S.

CONSULTANT/EXPERT BANKING (M/F/D)

What makes a good Consultant/Expert Banking (m/f/d)? For us, it is someone who enthusiastically plunges into a project, recognizes opportunities, develops them with vision, convincingly presents and realizes them.

What makes an interesting position for you? At the end of the day, you want to be sure that your work counts, that you make a difference, inspire others and move your clients and yourself further forward.

YOUR PROFILE:

- B.S./B.A. in a related discipline (i.e., Business, Economics, Computer Science, Information Systems, etc.) preferably with focus on Financial services and/or a commercial training at a bank or insurance company
- Minimum 5+ years of experience in Banking: Investment banking, Asset management, Retail banking, Securities settlement or payment transactions
- Profound knowledge of banking products, services, organization, IT systems and processes
- Analytical mind-set and IT affinity
- Driven by the possibility to gain deep insights into a wide range of companies during your multi-day customer appointments on-site
- Routine in business process management (analysis, modelling, optimization)
- Sound knowledge and long-term practical experience in project management
- Experience in agile procedures e.g. as product owner would be an advantage
- Fluency in English and German mandatory, French would be an asset

YOUR RESPONSABILITIES:

- Responsible planning and controlling of complex organizational and process management projects
- Design, implementation and where applicable optimization of new, innovative business processes and business performance monitoring design
- Multi-day stay at customer-site, also in other European countries
- Drafting of requirement-, solution- and technical conception
- Test management, test planning and test implementation
- Acquisition of projects, offer preparation

WE OFFER:

- Permanent position
- Attractive salary package
- Possibility of participation in the company's success
- Varied topics and projects with well-known customers
- Challenging tasks with potential for personal development
- Short decision-making paths and the flexibility of a cooperate team
